## Indications Reflect \$69.50 Annual Charge to Sewer Users

# South Huron Valley Retention Basin Issue Proceeds

BY MARGARET E. O'KELLEY

At the July 23rd Township Board meeting, Kent Early, the Township Engineer, presented the board with some additional figures on the cost of the retention basin that is proposed for the South Huron Valley Utility Authority.

In prior issues of "The Weekly" we have reported the push by the State of Michigan DEQ (Dept. of Environmental Quality) for the Authority to build an additional basin. DEQ insisted the Authority was allowing too much partially processed water to flow back into Lake Erie. The State of Michigan threatened to force the issue and by implication the costs would be higher.

At prior Township Board meetings, several items have been presented to the Board and as of this issue at least two of the issues remain. The first issue was the adoption of a resolution in support of the program. The second issue was the posting the Township's intent to bond in the legal newspaper. The third issue was how the Township was going to pay for their share of the costs.

During a prior meeting the Board did not pass the resolution because Trustee O'Kelley objected to adopting a resolution without agreement on how their share would be

raised. However, at the same meeting, a majority of the Board agreed to post their Intent to Bond in the legal newspaper. Clearly, the Board seemed to do this because they felt they were going to have to participate and the posting of their intent had a deadline.

During that meeting it was agreed the funding method would be presented at a special meeting for July 15th. However, it was not on the agenda and was not discussed. Even at the July 23rd meeting, the method of funding was not approved but at least it was discussed.

What the July 23rd meeting seemed to do is create a level of comfort with the figures the project will cost. Mr. Early, in his remarks made it

clear, the figures may change, as the borrowing figures become firmer.

Mr. Early presented the Board with documents that covered the costs and community shares. He advised the Authority provided a portion of the report. He went on to say the Township currently has 2017 sewer users and his figures were based on that amount. He said Karen Carney in the finance department and DPW Director Melvin Sheets would be able to provide a more current estimate of the users and projections of future users.

The figures he presented showed a total cost of the project as \$16,700,000. The yearly cost to a sewer user would be \$69.49.

Trustee Adkins asked why Flat Rock used the system a lot more yet their percentage was not much higher than ours (Flat Rock 16.8% Huron Township 14.6%). Early responded the formula was a complicated one and he was not familiar with all the factors. However, part of the percentage dealt with the distance of the sewer flow and the use of interceptors. He indicated he could secure additional information if it was requested.

Supervisor Mitchell pointed out the figures as presented was a reduction of about \$363,000 from the previous figures. He said, "in this case, it went in our favor."

Trustee O'Kelley, once again, asked how the costs

would be paid. The Supervisor said the costs likely would be placed on quarterly water bill. He estimated the Quarterly bill would be around \$18.00. He suggested the rate might go down as more users get on the system.

O'Kelley then asked if they needed to pass the resolution. The supervisor responded that no action was needed at this time. It appears the resolution process will be presented to the Board when the process is ready after bid acceptance. The opening of the bids is scheduled for 8-25-03.

Below is a chart that shows the average flow, the percentage of contribution and the estimated cost to the individual Huron Township user.

## Letters from the DEQ (Rumors from the Internet!)

This is an actual letter sent to a man by the Michigan Department of Environmental Quality, State of Michigan. Make sure you read the letter from the state (although it is long). This guy's response is hilarious, but read the State's letter before you get to the response letter.

Dear Mr. \*\*\*\*:

It has come to the attention of the Department of Environment Quality that there has been recently unauthorized activity on the above referenced parcel of property. You have been certified as the legal landowner and/or contractor who did the following unauthorized activity:

Construction and maintenance of two wood debris dams across the outlet stream of Spring Pond. A permit must be issued prior to the start of this type of activity. A review of the Department's files shows that no permits have been issued. Therefore, the Department has determined that this activity is in violation of Part 301, Inland Lakes and Streams, of the Natural Resource and Environmental Protection Act, Act 451 of the Public Acts of 1994, being sections 324.30101 to 324.30113 of the Michigan Compiled Laws, annotated. The Department has been informed that one or both of the dams partially failed during a recent rain event, causing debris and flooding at downstream locations. We find that dams of this nature are inherently hazardous and cannot be permitted. The Department therefore orders you to cease and desist all activities at this location, and to restore the

stream to a free-flow condition by removing all wood and brush forming the dams from the stream channel. All restoration work shall be completed no later than January 31, 2003.

Please notify this office when the restoration has been completed so that a follow-up site inspection may be scheduled by our staff. Failure to comply with this request or any further unauthorized activity on the site may result in this case being referred for elevated enforcement action. We anticipate and would appreciate your full cooperation in this matter.

Please feel free to contact me at this office if you have any questions.

Sincerely,  
\*\*\*\*\*

District Representative Land and Water Management Division

\*\*This is the actual response sent back: \*\* Re: DEQ File No. 97-59-0023; T11N; R10W, Sec. 20; Montcalm County.

Dear Mr. \*\*\*\*\*,

Your certified letter dated 12/17/2002 has been handed to me to respond to. I am the legal landowner but not the Contractor at \*\*\*\*\*. A couple of beavers are in the (State unauthorized) process of constructing and maintaining two wood "debris" dams across the outlet stream of my Spring Pond. While I did not pay for, authorize, nor supervise their dam project, I think they would be highly offended that you

call their skillful use of nature's building materials "debris". I would like to challenge your department to attempt to emulate their dam project any time and/or any place you choose. I believe I can safely state there is no way you could ever match their dam skills, their dam resourcefulness, their dam ingenuity, their dam persistence, their dam determination and/or their dam work ethic.

As to your request, I do not think the beavers are aware that they must first fill out a dam permit prior to the start of this type of dam activity. My first dam question to you is:

1. Are you trying to discriminate against my Spring Pond Beavers or,
2. Do you require all beavers throughout this State to conform to said dam request? If you are not discriminating against these particular beavers, through the Freedom of Information Act, I request completed copies of all those other applicable beaver dam permits that have been issued. Perhaps we will see if there is a dam violation of Part 301, Inland Lakes and Streams, of the Natural Resource and Environmental Protection Act, Act 451 of the Public Acts of 1994, being sections 324.30101 to 324.30113 of the Michigan Compiled Laws, annotated. I have several concerns. My first concern is: aren't the beavers entitled to legal representation?

The Spring Pond Beavers are financially destitute and are unable

to pay for said representation, so the State will have to provide them with a dam lawyer. The Department's dam concern that either one or both of the dams failed during the recent rain event causing flooding is proof that this is a natural occurrence, which the Department is required to protect. In other words, we should leave the Spring Pond Beavers alone rather than harassing them and calling their dam names. If you want the stream "restored" to a dam free-flow condition please contact the beavers, but if you are going to arrest them, they obviously did not pay any attention to your dam letter.... they being unable to read English. In my humble opinion, the Spring Pond Beavers have a right to build their unauthorized dams as long as the sky is blue, the grass is green and water flows downstream. They have more dam rights than I do to live and enjoy Spring Pond. If the Department of Natural Resources and Environmental Protection lives up to its name, it should protect the natural resources (Beavers) and the environment (Beavers' Dams).

So, as far as the beavers and I are concerned, this dam case can be referred for more elevated enforcement action right now. Why wait until 1/31/2003? The Spring Pond Beavers may be under the dam ice then and there will be no way for you or your dam staff to contact/harass them then.

In conclusion, I would like to bring to your attention to a real environmental quality (health)

problem in the area. It is the bears! Bears are actually defecating in our woods. I definitely believe you should be persecuting the defecating bears and leave the beavers alone. If you are going to investigate the beaver dam, watch your step! (The bears are not careful where they dump!) Being unable to comply with your dam request, and being unable to contact you on your dam answering machine, I am sending you this response to your dam office.

Thank you,  
\*\*\*\*\*

The following is from the website <http://www.truthorfiction.com/rumors/beaverdam.htm>

### The Truth

Both letters are authentic although slightly different than their originals. Stephen Tvedten says the beavers that built the dams on his property were killed by his neighbor who was then concerned about what would happen to the abandoned dams. The neighbor lived downstream where any debris from the dams would go if they disintegrated. Tvedten says his neighbor told the state authorities that he had seen Tvedten tending to the dams and reported him.

A spokesperson for the state, however, says there was evidence that the dams had human intervention, namely the installation of some 2 x 4's. According to state law, beaver dams cannot be built or maintained except by beavers. On Tvedten's website, he has a copy of an email sent by the Michigan office to someone inquiring about the beaver dam letter and says Tvedten had been seen maintaining the dams. Tvedten's response was that they were "dam" liars.

Presented by Transitions Seminars, Inc.**8 Common Problems in Business  
and some possible solutions****Problem:** Your boss does not accept you as a valuable member or your team.**Solution:** Convince him/her to spend 1 hour a week with you to discuss your progress and accomplishments**Problem:** You are new to your position and a subordinate wants your job and criticizes every decision you make. However, he/she does not do it to your face.**Solution:** Teach your staff your 'ground rules'. Hold a meeting and tell them that if they disagree with a decision you make, you expect them to come and tell you. Tell them you will consider their input and make a final decision. If the decision doesn't go their way, you still expect their 100% cooperation.**Problem:** You have a totally irresponsible coworker. The boss gives you the assignments and when you passed them on, she/he would drop the ball and you end up doing all the work.**Solution:** Insist your coworker be present in the meeting when the boss gives assignments. This way he/she receives work directly from the boss.

# 2003 Romulus Public Library Summer Reading Program

## Laugh it up @ Your Library

This year's program was great. 148 children from Romulus, Huron Township and surrounding areas participated and read for 90,805 minutes this summer.

The children and parents enjoyed weekly entertainment at the library. Some of their favorites were: Romulus Police Department K-9 Unit, magician, Jason Hudy, and Zeemo, a one man circus. They also learned about yoga, nutrition and bicycle safety. The weekly programs were sponsored by the Friends of the Romulus Public Library and the Huron Rotary. Prizes and incentives were purchased with money donated by the Romulus Rotary and the Romulus Chamber of Commerce.

At the final party children received certificates, prizes, and pizza. Drinks were donated by our local Wayne Road McDonalds. Guessing the number of gadgets in the window was won by Jeremy Summit of New Boston.

55 children read (or were read to) 15 hours or more this summer. Andrea Hay of Romulus read the most for a total of 115 hours! Other readers were: Adrienne and Ashleigh Anderson, Ian Bacic, Brian and

Renee Barron, Luke Blum, Alexander and Nicholas Brosseau, Andrew and Emily Burcroff, Alexis Caincross, Shelby Cady, Ciera Crout, David and Joseph Forbush, Stanley Gadille, Alyssa and Tyler Garland, Aaron, Andrew, David, Laura, and Sarah Hayse, Alexei, Anastasia, and Nicholas Helton, Felicia, Rachel, and Katie Jansen, Glenn Johnson, Caitlyn and Emily Kalinovik, Tommy McKinney, Kristina and Megan Macek, Donovan and Matthew Moonmaw, Dakota, Dylan and Wyatt Offman, Melissa Peterson, Claire Piesik, Cody and Kyle Salajan, Dajah Street, Drew, Jeremy and Lauren Summitt, Jacob, Jonathan, Jordan and Joshua Turek, Alex and Alyssa Wayt. Great job kids!!!

A good time was had by all. We thank our participants and sponsors. We are already looking forward to next year's program. In the meantime, we are partnering with Ringling, Barnum and Bailey Circus so children can earn prizes and passes to the circus this fall. Visit us at the library to learn all the details.

Library hours: Monday - Thursday 10:00 a.m. - 8:00 p.m.; Friday Noon - 7:00 p.m.

Closed Saturday and Sunday

# Tips from Tina

## TIPS FROM A TO Z

**ADDRESS LABELS** - When someone sends you a letter or Christmas card cut the return label from the envelope and tape it in your address book.

**BASEBALL CAPS** - If the plastic adjustable strap breaks sew a piece of elastic (3/4 of an inch) to the back of the cap.

**CANDLE HOLDERS** - Avoid wax from sticking by lightly spraying the inside of the holder with non-stick vegetable spray before putting the candle in the holder. The wax will pop out easy.

**DECORATING** - Silk flowers and plants can be dusted with cold air from a hair dryer or clean by shaking them in a bag with table salt.

**EGG SUBSTITUTE IN CAKE** - If a cake recipe calls for 2 eggs and you find that you only have 1 egg, use 2 tablespoons of mayonnaise for the missing egg.

## The Weekly

### Your Cosmic Look For The Week Of August 14th - August 21st

For entertainment only!

**Leo July 24 - Aug 23**

Seldom seen or heard is fine for now, yet one who has recently hurt you wonders if you can ever forgive. If in a festive mood, go over the bridge. Find a friend to polka with? 3339

**Virgo Aug 24 - Sept 23**

Try to remain out of the limelight or out of all lights this week. Friends are few and rare to keep their word but your actions are not worthy of praise. Dance with dignity. 0987

**Libra Sept 24 - Oct 23**

Children spend money not available and leave you to pay the piper. Back to school delayed. Ask if extra days with children worth the rebuild. You need time to rest before illness creeps in. 2847

**Scorpio Oct 24 - Nov 22**

Northern lights help you find way home but not comforts you long for. Child develops special needs but hand in cookie jar is not the answer. Look for love but stay home. 3777

**Sagittarius Nov 23 - Dec 21**

Leaky faucet not as bad as other leaks. Find doctor to heal problems but ask for community care services. Rising cost of living makes you anxious. Be glad no money in stocks? 9890

**Capricorn Dec 22 - Jan 20**

You lack time to worry about spouse's needs today. Others find you irresistible but remember who rules your heart. Take penny collection to exchanges but check each one carefully. 0967

**Aquarius Jan 21 - Feb 19**

You long for summer's end. Yet you know what Fall will bring. Family issues continue to cause a rift and for once you find all will not mend easily. Ask for early leave for vacation. 3437

**Pisces Feb 20 - Mar 20**

Fortune shown is in wrong direction once again but you find ways to make own. Leave loud family member at home. Time for self need. Find ways to make others smile and stop your tears. 2343

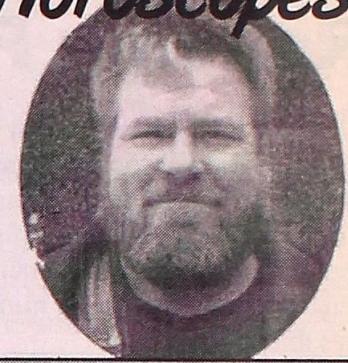

**Aries Mar 21 - April 20**

Seldom seen or heard. Never seen or heard? Sounds like you need to come out of someone's shadow and soon. Stop signs signal danger. Be prepared to travel fast but not on empty tank. 0002

**Taurus April 21 - May 20**

Backing in the drive leaves you looking forward with nowhere to go with doctor for results. Strong first impression brings you soul mate by Fall's end. So smile. 0023

## Horoscopes

William Grover

**Gemini May 22 - June 21**

Forgiveness comes with apologies. Time does not heal all wounds. Ask for time to spend with small children but keep close watch. Take someone to your favorite hangout. 8888

**Cancer June 22 - July 23**

Vacation comes and goes fast. Money gone and only future seen is bleak. Look for weather changes in afternoon and be prepared for shelter. Ask Pisces for help reading local news? 1232

## Grilled Lamb Chops

I am continuing grill month with one of my favorite Lamb Chop recipes. Lamb is a little pricey but you don't eat it every day so once in a while it is OK. to splurge. This recipe is worth the dent in your budget.

### Tip of the Week:

For great grill roasted potatoes, par broil or microwave the potatoes until almost done. Cut into quarters lengthwise, put them into a bowl or plastic zippered bag and season with a little olive oil or melted butter, rosemary and salt. Gently toss or shake to coat evenly. Grill them on med. heat, turning them until brown and crispy on all sides.

## Grilled Lamb Chops

serves 4 - 8 Lamb Chops - 2 per person trimmed

### Marinade

|                             |                                |
|-----------------------------|--------------------------------|
| 1/3 cup Teryaki sauce       | 1 tsp. Garlic Powder           |
| 1/3 cup Soy sauce           | 1 tsp. Rosemary-dried, crushed |
| 3 tbs. Worcestershire sauce | 1 tsp. Thyme-dried, crushed    |
| 3 tbs. Olive oil            | 1/2 tsp. Mint-dried, crushed   |
| 3 tbs. Red wine vinegar     | 1/2 tsp. Pepper                |

Combine all ingredients in a covered nonmetal container. Marinate chops 4 hours to overnight (shake or turn several times) Grill on a medium heat 5-7 minutes per side for medium and 8-10 min. per side for well. Serve with buttered rice or roasted potatoes.

# Knights of Columbus Sees Record-Breaking Year for Volunteerism

The Father John Hubert Knights of Columbus Council, #5446, Flat Rock has recently received the final data from their headquarters in New Haven, CN. This data reflects the dollars and volunteer hours services for 2002.

The results of final reporting, the order has established another record breaking year for fraternal and charitable activity. In 2002 the Knights raised and distributed, to charities, a record \$128,554,307. In ad-

dition, over 60,821,480 hours of volunteer services were performed. National average of hourly value for volunteer work is \$16.54. Hours times value (60,821,480 X \$16.54) and add to \$125,554,307, you get \$1,134,541,586, yes over one billion.

The Father Hubert Council is very proud to be a part of this effort and pledge to do even better in 2003.

We hope to help in building a better world.
